SUMMARY

Results-oriented IT professional with proven experience in technical support within enterprise Microsoft 365 environments. Specialized in incident, problem and change management based on ITIL principles, with hands-on knowledge of ServiceNow, Intune, Azure AD and Microsoft 365. Combines a structured way of working with strong analytical skills and a proactive attitude toward process optimization and service improvement. Driven by quality, security and customer focus in every link of the IT chain.

EXPERIENCE

ServiceNow Support Engineer — Devoteam, Amsterdam

Jan 2026 – Present

- L3 support on the ServiceNow platform: resolving complex technical issues.
- Rolling out updates and configuration changes driven by customer needs.
- Supporting and training end users.
- Applying scripting (JavaScript) for platform-related work.

IT Support Engineer — Conclusion Enablement, Utrecht

May 2025 – Jan 2026

- IT support in an enterprise environment with a focus on Microsoft 365 (Exchange Online, Teams, SharePoint, Azure AD, Intune).
- Managing users, devices, entitlements and policies via Microsoft 365 admin portals and Intune.
- Handling incidents, service requests, changes and problems via ServiceNow, aligned with ITIL.
- Prioritizing tickets using a priority matrix, safeguarding SLAs and customer satisfaction.
- Contributing to change management, process optimization, documentation and the KMS.

IT Technical Support — Port of Rotterdam, Rotterdam

Apr 2023 – Feb 2025

- Incident management via TOPdesk and ServiceNow: rapid diagnosis and follow-up of IT issues.
- Executing changes with minimal operational impact (Windows environment).
- Workplace management: installation, configuration and maintenance of hardware and software.
- Implemented process improvements, resulting in faster resolution times.
- Handled network-related incidents, including connectivity and VPN connections.

IT Helpdesk Support — OGD ict-diensten, Rotterdam

Mar 2023 – Feb 2025

- Resolving incidents across networks, applications and hardware.
- Change support, updates and migrations.
- Logging in TOPdesk and ServiceNow, aligned with ITIL principles.
- Gained experience with routers, VPN connections and network components.

IT Specialist — Tyger Marketing, Rotterdam

May 2022 – Mar 2023

- Rolling out workstations (Windows 11 & Chrome OS).
- Setting up and maintaining Google Workspace and LeadDesk.
- Managing hardware, network configurations and vendor communication (incl. KPN).
- Supporting office automation and administrative IT processes.
